

INTERNSHIP OFFER

COME TO SPAIN TO LIVE THIS EXPERIENCE

About Us

Welcome to **TheCircularLab** and our Circular Talent Lab program — an innovation space empowering young people to drive change towards a circular future.

Here, you'll grow your **potential**, create real **impact**, and become part of a **community** shaping a more sustainable world through creativity, collaboration, and innovation.

What we offer

A 3-month Innovation Experience in Spain in 2026

(from mid-September to mid-December)

Join us in **Logroño (La Rioja)** for a unique hands-on internship at TheCircularLab, working with young talents from across Europe on real circular economy challenges. **Participants should receive an Erasmus+ mobility grant from their sending universities or sending institutions.**

Real Projects, Real Impact

Co-create and design **practical solutions** for sustainability and packaging together with industry experts — from idea to prototype using design thinking and agile methods.

Expert Mentoring

Learn directly from **professionals** who will guide and challenge you while helping you build teamwork, creativity, and innovation skills.

Multidisciplinary Young Talent

Be part of a diverse group of **6 young professionals** from different fields and cultures, collaborating to drive meaningful change.

Multidisciplinary

We are looking for diverse profiles:

- ▶ Sociology
- ▶ Product Design
- ▶ Public Policy
- ▶ Industrial / Environmental
- ▶ Engineering
- ▶ Business Administration,
- ▶ Management or Marketing

Any field with a focus on the Circular Economy

Member Stories

Hear from some of our participants:

"An experience to young people who want to work for the future of the planet. A space where the importance of recycling becomes real through innovative projects."

Julen Navas
Industrial Engineering

"One of the most challenging and rewarding experiences I've ever had. Intense months where I applied social sciences to keep advancing the Circular Economy."

Enya López
Anthropologist
