

Instructions for conducting the language self-assessment test (assessment test) through the Online Language Support (OLS) platform

After registering to the EU Academy and creating an account,

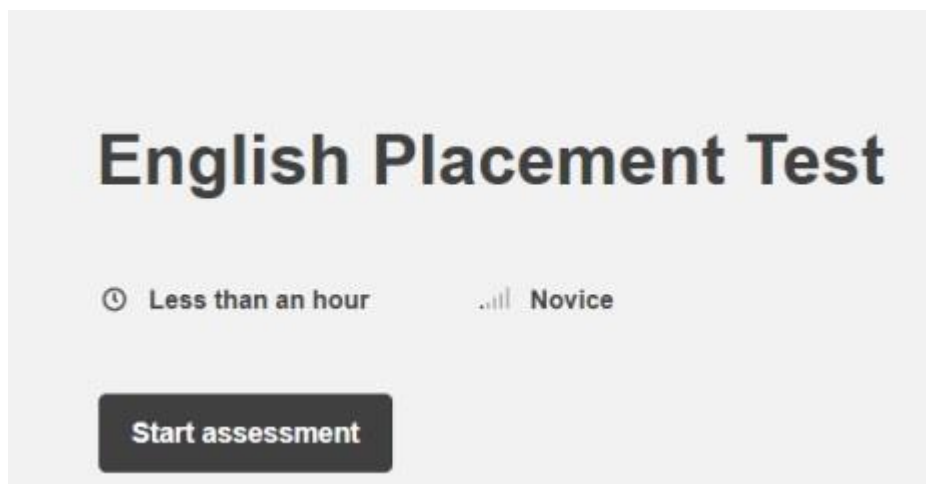

Go to the following link: <https://academy.europa.eu/courses/getting-started-for-ols-learners>

and log in with your account (EU login).

In the search field that says "What would you like to learn today" type the language assessment you want to do in the language of Studies or Internship that you will carry out with the Erasmus+ program

E.g. "English placement test"

Select the test you want and the following window opens:

Press "Start assessment". You start the OLS test by pressing "Attempt quiz now". When you finish the test it will show you the level of language assessment you received.

Please, send to erasmus@aegean.gr either the screenshot with your score or your evaluation certificate that you will download from the platform, in case it has issued one, following the procedure below:

- In the arrow next to your account name at the top right of the screen, select my dashboard
- on the screen that opens you will select "My achievements" (bottom right), where you can find and download your evaluation certificate.

You can repeat the test as many times as you wish.

The result of the language self-assessment test should be sent to the Erasmus+ Office (erasmus@aegean.gr) once before your departure (as a prerequisite for mobility together with the other supporting documents) and once after its completion, along with the return documents.

Note: It is clarified that the grade of the language assessment test has no impact on your mobility.
