

Dear Colleagues,

We are delighted to invite you to the workshop [“Joint Programmes on the Move: a laboratory for digitalisation and innovative pedagogy”](#), which will be held in Padua, Italy, on 6th April 2022 afternoon and organised in the wider framework of the [Argus](#) European Alliance Annual Conference.

The workshop is the 1<sup>st</sup> multiplier event of the [GO-DIJIP Project: Integrating digital collaborative environments into joint programmes](#). The project aims to develop a digitalized, innovative, collaborative and quality-oriented Higher Education inviting Joint Programmes coordinators, managers, teachers and students to explore and share existing practices and innovative learning and teaching methodologies.

The first part of this event will be dedicated to enhance the visibility of the GO-DIJIP project results and to promote a dialogue between those involved at different levels into International Joint Programmes with embedded digital elements, providing good practices and sharing perspectives on digital and innovative pedagogies.

The second part is intended as both a co-evaluation and a co-creation laboratory: participants will be divided into groups and will be invited to reflect on key aspects linked to the integration of digital elements into Joint Programmes. Groups' feedbacks and key recommendations will feed into the later development of the Open Training Course “*Thinking Digital in Joint Programmes*” that will be launched in 2023.

Register [here](#) by **17 March 2022!**

Places are limited, thus we advise you to register asap. The first 15 registered participants will be offered free accommodation (1 night from 6 to 7 April) in Padua.

For late registrants and for those of you who won't be able to travel to Padua, we will offer the plenary session online too. Parallel sessions will be offered face-to-face only.

We look forward to welcoming you in Padua,

The GO-DIJIP Team
